COMPLIMENTARY LUNCH

Pre-register by Tuesday, November 1st, 2016

Contact: Kristi Carpenter, Skagit Conservation District

(360) 428-4313 or email: kristi@skagitcd.org

This training opportunity is being offered to provide information and general guidance to engineers, designers, developers, and other interested parties on how to prepare and implement Stormwater Site Plans, including an overview of the nine Minimum Requirements for Stormwater Management applicable to new development and redevelopment sites. In response to new municipal stormwater permits, local municipalities, including Skagit County and the Cities of Anacortes, Burlington, Mount Vernon, and Sedro-Woolley have been required to integrate Low Impact Development into their local codes, rules and standards. The new requirements will be effective January 1, 2017.

The training will be provided by Doug Howie, WA Department of Ecology and will include:
Stormwater Site Plan Overview Thresholds and Flowchart
Minimum Requirements Example Problems Wrap-up and Questions

Sponsored by:

**Skagit Conservation District, City of Anacortes, City of Burlington, City of Mount Vernon,
City of Sedro-Woolley, Skagit County and Skagit Island County Builders Association**
